Chair Skigen stated that a report was received on the status of the School Resource Officers and regarding compliance issues with the grant. Stamford is not in compliance with the grant, but it has received an extension from the U.S. Department of Justice. They recognize that a number of communities are having difficulty complying with the terms of the grant, particularly post 911. Stamford has other problems with school resource officers. As noted in the paper recently, the U.S. Department of Justice has given the city five additional positions, and it is a matter of discussion between the Police Department and the administration whether to accept the grant money since we are having so much difficulty filling the positions. The Grants Office and the Police Department are working on trying to get police officers in the schools so that we are in compliance with the grant.

Chair Skigen reported that the Committee approved each item by a vote of 4-0-4. Chair Skigen moved both items.

Chair Skigen stated a discussion was held with the managers of this department, and the Committee received additional information it had requested. This information was deficient. Chair Skigen stated that he voted in committee to approve so that it would go to the floor, with the anticipation that the additional information would be satisfactory. He does not believe the information is satisfactory, and as such moved to hold the item. Said motion was seconded.

Rep. Mirkin stated that the information received was rubbish. From the submission of the item, they are reversed. Bulky Waste should be Miscellaneous and vice versa. This is enough to cause suspicion of what is being presented. This is a trend that started two months ago in the Operations Committee. The numbers still don’t make sense, and this attempt to explain the numbers raises more questions than it answers. Rep. Mirkin hoped the item will be unanimously sent back to Committee.

Rep. Skigen stated that if we defeat the motion, it will have to go back to the Board of Finance. If it is held, the Committee can review it further.

Rep. Lyons asked if the reason for holding is the quality of the information received. Chair Skigen stated that speaking for himself, the information received is deficient.

Rep. Mirkin stated that it is based on deficient information, however, this is an issue where he is not sure that the people that come before the Committee for additional appropriations really understand what is driving these costs. Until these individuals understand this, he will send the items back to Committee.

Rep. DeLuca stated he agreed with Reps. Mirkin and Skigen. This Department had insufficient answers during the budget deliberations, and they still don’t have a clue as to what is happening. He hopes this will inspire them to take this
matter with the same seriousness as the Fiscal Committee and the Board of Representatives take their responsibilities.

A motion to waive the secondary committee report was made, seconded and approved by unanimous voice vote.

15. F26.561  ADDITIONAL APPROPRIATION (Operating Budget); Recycling; Contracted Services; this account covers curbside pickup of recycled paper and cardboard; monthly charge, per contract, has risen from $94,201.85/month to $96,960.90 in last six months.
04/29/05 – Submitted by Mayor Dannel P. Malloy
05/12/05 – Approved by Board of Finance
05/31/05 – Committee approved 5-3-1

RETURNED TO COMMITTEE BY MACHINE VOTE 21-15-0

Chair Skigen moved to approve Item No. F26.561; said motion was seconded.

Chair Skigen stated that the City is legally obligated to pay this contract. He voted against it in Committee. He is concerned with what is and what is not in the contract, and there is a serious concern in North Stamford and other parts of Stamford where the haulers are not covering their trucks, and stuff is flying out of the trucks and littering the sidewalks.

Chair Skigen stated that he understands this is a contractual obligation, but he wants to send a message to Enviro that their conduct is not satisfactory. Apparently just telling them about their conduct isn't achieving any solution.

Rep. Mirkin stated that he also voted against this in Committee, and he also recognized this as a contractual obligation. However, there is an obligation for the Contractor to perform and it is hard-pressed for anyone to believe with litter flying off the back of the truck, it is incomprehensible why we are still paying them at the rate of $1.2 million a year. He has worked on this over the last six months; he has pointed it out to the Mayor on tours of the neighborhood, he has spoken to Tim Curtin and nothing has happened. He was advised by Morty Klein that on a Saturday, Enviro employees picked up 100 milk jugs on their own time. Rep. Mirkin stated this means nothing. It is a simple matter, you put the doors up, put
a tarp on the truck, follow City Ordinance 137-5 and the fine is $90 per incident. A police officer should follow these trucks and fine them. Rep. Mirkin stated that we should send a message to Enviro and the administration that this performance is unacceptable. Rep. Mirkin stated he hopes that other members, on both sides of the aisle, vote no on this matter.

Rep. Lyons stated that he voted in favor of this item in Committee and will vote in favor of it tonight. He stated that there is a lot of emotion around this issue, and there may be better management needed, but we should really get to the people’s business. Does this Board really want to have an interruption in recycling for a few weeks? Members should remember the public outcry when garbage collection was skipped on certain Mondays. Rep. Lyons stated that we could bring Enviro in front of the Operations Committee, but we should approve this for the citizens who rely on the recycling services.

Rep. DeLuca stated that in reality, holding this money will not stop the recycling program. It will send a message to Enviro.

A motion to reconsider was made, seconded and approved by a machine vote of 22-14-0 (Reps. Adams, Blackwell, Boccuzzi, Cannady, Clear, DePina, Diamond, Figueroa, Giordano, Kernan, Lyons, Martin, McCullen, McDermott, Mitchell, Nakian, Nowakowski, O’Neill, Rauh, Skigen, Summerville and Zelinsky in favor; Reps. Benyus, Coppola, Day, DeLuca, Fedeli, Franzetti, Greenberg, Layton, Mirkin, Molgano, Morrow, Munger, Pavia and Pia opposed) (See Vote Record No. 621).

A motion to waive the secondary committee report was made, seconded and approved by unanimous voice vote.

*Secondary Committee: State & Commerce*
Rep. Day stated that a report has been submitted to all representatives regarding the two items above. He added that regarding Item No. 1, the Committee heard that the process for filling the vacancies in the Land Use Department is not going well, and the Committee felt that the president of the Board should write a letter to the Human Resources Department and the Personnel Commission as it appears this is not being treated very seriously. There are insufficient applicants, and we are either not offering enough or not advertising properly.

On the second item, Co-Chair Day encouraged everyone to look at the report, and he praised the presenters for an excellent discussion of the report. He was pleasantly surprised by the positive results depicted in this report. It also outlines certain areas where we need to improve, particularly in the tracking of job creation. This program is of great benefit to the City, and the report was of extremely high quality.

   Gail Clear, Vice Chair  
   Meeting: Thursday, June 2, 2005

Chair Lyons reported that all members present were in agreement that the facility needs to be addressed – both long term and short term. The Director of Engineering agreed to help draft a scope of work document to attempt to get a feasibility study prior to the beginning of September. This will allow time for lobbying for the project in the next capital budget cycle.

Chief Larrabee indicated that the two most immediate areas of concern were the jail cell facilities and the records retention room and workspace area connected to that.
